

# Product Information

## Colour Range

The selection of colours for play equipment is an important part of the design process, and should take into account the proposed user group and the surrounding environment. Powder coat colours have been grouped into themes to aid selection, however the combinations possible are extensive.

### POWDER COAT COLOURS

The colours below have been selected because they are popular in outdoor playground equipment applications. However, a large range of powder coat colours is available, although in some cases additional lead times and costs may be involved. It is most important to recognise that all colours fade over time, but that bright, bold or strong colours will show most noticeably (especially reds). When selecting colours (including our standard colours) please consider the effect of fading on the long term appearance of your playground as colour variations are not covered under powder coating warranties.

#### HIGHLIGHT THEME

#### EARTH TONES THEME

#### HERITAGE THEME

#### OTHER POPULAR COLOURS

### HDPE PLASTIC COLOURS

The most commonly available HDPE colours are shown below, however variations may apply from time to time.

# WIRE ROPE COLOURS
