

# Product Information

## Colour Range

The selection of colours for play equipment is an important part of the design process, and should take into account the proposed user group and the surrounding environment. Starting with the powder coat colours of the main elements as a basis, coordinating colours for other accessories can be selected as shown below. Please note that all steel and aluminium platforms are supplied in APO Grey Scylla (light grey) and all steel staircases in Notre Dame Scylla (dark grey). Powder coat colours can be grouped into specific colour themes and the combinations possible are extensive. Specific complete colour schemes are also available for review on request.

### POWDER COAT COLOURS

The colours below have been selected because they are popular in outdoor playground equipment applications. However, a large range of powder coat colours is available, although in some cases additional lead times and costs may be involved. It is most important to recognise that all colours fade over time, but that bright, bold or strong colours will show most noticeably (especially reds). When selecting colours (including our standard colours) please consider the effect of fading on the long term appearance of your playground as colour variations are not covered under powder coating warranties.

### CORRUGATED SHEET COLOURS

Where a roof is constructed from corrugated sheet, Colorbond®BSL steel colours are available and a selection of the most popular colours is shown below.

## TIMBER COLOURS

All timber components will be supplied coated in Old Gold colour unless otherwise specified. When specifying uncoated timber, please be aware that it will be more susceptible to weathering.

Natural Finish  
(Uncoated)

Clear (Coated)

Old Gold (Coated)

Spotted Gum  
(Coated)

Jarrah (Coated)

Walnut (Coated)

## HDPE PLASTIC COLOURS
