

# Product Information

## General Specifications

**motion+** equipment is a complete range of play activities that move, including swinging, rocking, twisting, bouncing and more, and provides that action packed fun that kids love!

### SWING FRAME UPRIGHTS

**Metal A Frame Swing Steel Option:** 75 x 75 x 3.0mm galvanised steel SHS with powder coat finish.

or:

**Metal A Frame Swing Aluminium Option:** 75 x 75 x 5.0mm aluminium SHS with powder coat finish.

**Single Post & 5 Way Swings:** 100 x 100 x 4.0mm galvanised steel SHS with powder coat finish.

**Timber A Frame Swings:** 125 x 125mm sawn White Cypress with all corners fully radiused.

**200 x 200 Swings:** 200 x 200mm sawn White Cypress with all corners fully radiused.

### SWING TOP BARS

Fabricated from galvanised steel with powder coat finish.

### SWING BEARINGS

Heavy duty integrated bearing hub with self-lubricating bush.

### SWING ATTACHMENTS

Moulded rubber with steel reinforcing.

### SWING CHAINS

6mm Stainless Steel chain with cast Stainless finger entrapment free connectors.

### GYRO SWINGS & FLYWAYS

Fabricated from Grade 350 and 450 steel as appropriate with zinc rich powder coat primer base layer and powder coat finish.

### GYRO PIVOTS

Heavy duty, low maintenance pivot - Allows movement in all directions.

### FLYWAY TROLLIES

Trolley with integrated brake - With removable side panel for easy maintenance.

### ROCKER BODIES & CAROUSEL FLOORS

Engraved 3 ply HDPE plastic sheet.

### ROCKER SPRINGS

Precision engineered steel spring with spacers and end plates to eliminate finger entrapments.

### CAROUSEL BEARINGS

Heavy duty, low maintenance slew bearing.

### TRAMPOLINE MATS

UV stabilised slip resistant injection moulded nylon tile surface with heavy duty galvanised steel springs.

### FRAMEWORK

Fabricated from galvanised steel with powder coat finish.

### ROPEWORK

Synthetic strands braided over a galvanised steel wire core.

### HARDWARE

**Galvanised Option:** Vandal resistant with galvanised/class 3 finish.

or available for selected main fasteners:

**Stainless Steel Option:** Vandal resistant and 316 Stainless Steel construction.

### CORROSION PROTECTION

**Primed Welds Option** Zinc rich powder coat primer applied to all welds.

or:

**Full Primer Coat Option:** Zinc rich powder coat primer base layer applied to all galvanised steel components.

### FOOTINGS

Concrete, size and shape fully engineered as appropriate.
